

PRESS RELEASE

Cooperation between INTRACOM Defense Electronics and THALES

Koropi, 06 July, 2010 – The development and qualification of the VHF/HF Remote Control System (RCS 610) have been completed successfully, in the frame of a contract worth € 2.6 mil awarded to INTRACOM Defense Electronics in 2008 from the French company THALES. The system is already in the series production phase with the placement of an initial order, while is expected an increase in the order flow.

INTRACOM Defense Electronics is the sole and exclusive supplier worldwide of the RCS 610, which is a multifunctional terminal for the PR4G VHF F@stnet and HF Skyf@st radios range, especially designed for military applications. It supports a wide range of services over VHF and HF radios and allows distant users to gain control of all important radio parameters.

Such agreements enlarge the very important involvement of INTRACOM Defense Electronics in development and production programs for telecommunications systems and demonstrate its recognition by leading international manufacturers in the defense field. In parallel the selection of the Company for the materialization of the program, establishes INTRACOM Defense Electronics as a reliable and preferred partner for the international requirements of THALES, one of the most significant companies worldwide in the fields of Aerospace, Defense and Security.

About INTRACOM Defense Electronics

INTRACOM Defense Electronics, Greece's largest defense electronics systems provider, is a subsidiary of Intracom Holdings, one of the largest multinational technology groups in Greece. The company designs, develops and manufactures state-of-the-art military communication systems, encryption devices, command,

and communication systems (C³), missile electronic components, radars, simulators, and testing equipment. INTRACOM Defense Electronics participates in a number of domestic as well as international R&D and co-production programmes, and is a registered member on NATO's vendors list. The Company's products and services are deployed in Belgium, Cyprus, England, France, Germany, the Netherlands, Spain, Sweden and the USA.
